

#84485 GRID PANEL SHELF UNIT

Step 1: Use connectors to connect edges of grid panels, using four connectors per edge. This may be done with grid panels upright or on floor. Use the two vertical bars that make up grid edge, connect to the inside bars.

Step 2: With three panels upright, attach top shelf at desired height by placing shelf's downward-facing wire ends over horizontal bar in grid panel.

Step 3: Repeat for additional shelves.
